

PRESS RELEASE
JUNE 2021

Concrete Capital Partners and Featherstone Capital Partners Launch \$300 Million Equipment Leasing Fund Program

(Geneva, Switzerland) Concrete Capital Partners (CCP), the Swiss advisory company, announces plans to launch a European equipment leasing program. In partnership with London-based Featherstone Capital Partners LLP (FCP), the investment strategy will offer qualified investors access to UK and European based secured leasing assets of high quality, high yield, low volatility and low correlation with the financial markets.

The well-established and proven 7 year leasing strategy will be offered privately to qualified investors in multiple series over a period of two years. CCP partners with FCP, a leading UK asset manager, to provide innovative yielding investments in private markets.

"We're thrilled to work so closely with the experts at Featherstone Capital Partners," says CCP founders. "Our collaborative strategy will open up exciting new investment avenues to qualified investors who are looking for stable and higher yields in private markets".

"Crucially, even qualified investors need capital support, as well as leading advice. Our new partnership will enable successful applicants to source front-line equipment to help grow their portfolios."

The fund will look to provide investors with an annual yield in excess of 6% paid quarterly with annual liquidity. Investors will be able to take advantage of physical asset backing over a wide range of industries with focus on ESG. The leasing fund, CCP states, will offer risk mitigation and security. With asset backing and low volatility, investors can expect strict risk protocols. This is further bolstered as the fund will have low correlation to the financial markets.

Typically, leases will be secured with machinery and equipment considered mission-critical with company's conscious of environment, social and governance. Already, the strategy offers demonstrable stability as a result of strict due diligence and risk criteria, it is a yield-generating investment.

CCP and Featherstone Capital Partners' initial funding series will be available to register for soon. More information is available via www.concretecapital.ch
